

Why give to the United Way?

Actually.....

**"You don't give to the United Way.
You give through the United Way."**

With one donation or a series of donations through a monthly credit card pledge, a contribution made individually or through an employee campaign you are able to simultaneously contribute to 14 agencies that provide hundreds of programs and services for our friends and neighbors in Callaway County.

The Board of Directors carefully reviews the agency's budgets and programs prior to determining the amount to be allocated to each agency. In addition, each agency performs an annual audit to assure the funds are used appropriately.

More than 86% of every dollar we receive goes to the agencies we fund. Our all-volunteer Board of Directors scrutinizes the needs of our community and the agencies that serve it, funding those that can accomplish the most good. Our agencies provide over 200 programs and services that touch nearly 21,000 Callaway County residents each year - from the youngest child to the most senior adult - we all know someone that has benefited in some way. The Callaway County United Way makes sense and you can make a huge difference in the lives of many when you make a donation!

**We require the agencies serve the community in the best way possible
without unduplicating services.**
